

Winston's Dallas Private Equity Team Hosts Inaugural Capital Connection

APRIL 25, 2024

Winston's Dallas Private Equity Team, led by Private Equity Practice Co-Chair Matt Stockstill, hosted its inaugural Capital Connection event on April 25 in Winston's Dallas office. Investment banks from the greater DFW area and private equity firms from across the country joined for an afternoon of relationship building and networking, where Winston facilitated a series of one-on-one meetings between these dealmakers.

"After a series of successful Capital Connection events hosted by our Los Angeles Private Equity Team, we are elated to bring this event to the DFW market. We strive to bring tailored services and unique experiences for both new and longstanding clients, and Capital Connection demonstrates that commitment," said Matt Stockstill.

"Winston's Transactions Department expanded this product offering to other cities because we saw the need and demand were there. As the department continues to grow in the U.S. and abroad, this level of client service differentiates us in an increasingly competitive legal market," said Transactions Department Chair Eva Davis.
