

WHY CHOOSE WINSTON?

Opportunities for Patent Litigators

Winston & Strawn dominates patent and IP law and is known for delivering billion-dollar patent verdicts for our clients.

With more than 90 attorneys, Winston's patent litigation practice is one of the nation's most active and highly regarded. Our success is driven by a simple strategy—we attract and hire the best trial lawyers with the technical abilities to litigate, try, and win the most complex patent and technology litigations.

More than 20 of our attorneys have first-chaired IP trials, and from 2019–2023, we took 22 patent cases to trial. Notably, we handled more patent trials on behalf of defendants than any other U.S. national law firm in that time period.

“Winston tries—and wins—more patent cases than just about any other firm in the country, which brings great comfort to in-house teams when the very companies they work for are on the line.”
