

James Kappos

Associate

Dallas

+1 214-296-9816

With a degree in electrical engineering, James combines his technical knowledge with his legal experience to advise clients on intellectual property matters across a variety of industries and technologies.

Before joining the firm, James was a patent agent for a global IT consulting company, where he advised on patent strategy, including drafting and prosecuting numerous hardware and software patents. James applies this experience to his handling of intellectual property litigation matters.

Credentials

EDUCATION

James earned his J.D. from Harvard Law School in 2024, where he was Treasurer and an Executive Board Member of the Harvard Law Texas Club. James was also a subciter for the *Harvard Journal of Law & Technology* and *Harvard Journal of Sports & Entertainment Law*. James received his B.E., *cum laude*, in electrical engineering with concentrations in microelectronics and computer engineering from Vanderbilt University in 2019.
