In addition, the Centers for Medicare and Medicaid Services (CMS) recently published their [annual guidance](#) regarding the maximum limitation on cost sharing for 2026, including an annual out-of-pocket maximum limit (the Affordable Care Act requires that non-grandfathered health plans comply with cost-sharing limits for essential health benefits). CMS has indicated that the annual out-of-pocket maximum limit for non-grandfathered plans will increase approximately 10.3% as shown in the chart below:

MAXIMUM OUT-OF-POCKET LIMIT UNDER ACA	2025	2026	CHANGE FROM 2025 TO 2026
Self-only coverage	\$9,200	\$10,150	Increase of \$950

Note: The Internal Revenue Service will publish the 2026 out-of-pocket maximums and other limits for high-deductible health plans in 2025.

WINSTON TAKEAWAY

Plan sponsors should ensure the increased dollar limits are appropriately reflected in their payroll and plan administration programs for 2025 and included in annual and other required communications to plan participants. Plan sponsors and health insurance issuers of non-grandfathered health plans should also review the recently updated out-of-pocket maximums when addressing their health plan designs and cost-sharing requirements for 2026.
